

# STEPHEN FINKEL PHOTOGRAPHY

## Kodak Instamatic 155x

Kodak 155x Instamatic camera was made by Kodak Ltd in the UK, Kodak AG in Germany and Kodak Brasileira comercio e industria ltda, between September 1971 and 1977. This camera was a viewfinder type for 126 film cartridges. The only adjustments on this camera was by rotating the lens ring between symbols for sunny and cloudy/flash which changes the shutter speed. Film advance was by a combination thumbwheel with lever attached. Flash was magicubes.
