

STEPHEN FINKEL PHOTOGRAPHY

Polaroid EE44 Camera

The Polaroid EE44 was produced in 1976-1977. This model is similar to the Polaroid Electric zip, except it has a strap and screw to attach a tripod to. The lens was 3 lenses in plastic or glass-114m. The shutter is cell electronics with speeds of 1/500 to 10 seconds and aperture of f/9.2. The focus is a fixed focus with a minimum focus of 1.5m. The ISO is 75 and 3000.
